Letter of Reference

To whom it may concern:

We have no hesitation in writing a letter of recommendation for Mr Hugo Brunet. He worked with our firm in Berlin from February 1st, 2018 until July 31st, 2018 as an intern within the Consulting department (service line Advisory).

He was assigned the following tasks:

- Development of a peer-to-peer energy trading platform based on Hyperledger Fabric (using Hyperledger Composer)
- Blockchain and Distributed Ledger Technology (DLT) studies
- Consulting Mission regarding blockchain in the energy sector (market study, technological study, presentation)

Mr Brunet had varied specialized knowledge. He communicated his ideas clearly and he always completed his work on time. If he had questions, he was not afraid to ask and always offered solutions for problem solving. He quickly became acquainted with new topics and accepted constructive criticism and instruction well with regards to the tasks that he was involved in.

In closing, Mr Brunet consistently produced high quality work. We are confident that Mr Brunet will continue to be very productive. He has our recommendation.

We hope this information proves helpful. We wish him all the best for his private and professional endeavours.
